THE RESOLUTIONS.

For the following, besides other reasons, the Democrats of Salt Lake county, in convention assembled, ask the voters of this county for their suffrages at the approaching election:

The condition of the affairs of the county, brought shout by the wise, economical and businesslike administration of the present Democratic officials, is a cause of congratulation to all chinens, and gives assurance of continued Democratic control in this, the wealthliest and most populous country of the state.

FOR STATE SENATORS: R. K. Thomas of Salt Lake. Orson P. Whitney of Salt Lake. FOR THE HOUSE OF REPRESEN-

Samuel W. Stewart of Salt Lake. Heber Bennion of Taylorsville, Benjamin F. Lloyd of Salt Lake, Horace Cummings of East Mill

The Democratic county convention met at the theatre yesterday afternoon and nominated the two candidates for state senator and four of the ten representatives to the lower house. It also selected the 129 delegates to the state convention.

state convention.

The proceedings of the convention have been marked with the greatest-enthusiasm and harmony. There has not been an incident to mar the serenity of the session. The officers chosen are performing their duty with celerity and firmness.

The delegation as a whole is made up of representative men and women, and the desire to nominate a good ticket seems to predominate in every breast.

breast.

Of course, the proceedings have been slow up to date, this being caused by the large number of candidates which have been placed before the convention for the lower house. The number, as will be seen, is an enormous one, and is indicative of a desire on the part of the convention to get good timber for the places. The remaining six will doubtless be selected early today, as there will not be so many ballots to cast.

The candidates for the state senate cast.

The candidates for the state senate came in the nature of surprises, as both were more or less of the dark horse variety. It was thought up to the time of the holding of the convention that D. H. Peery, Jr., and C. S. Williamson were sure winners. Both containing the said annuage themselves as eithingular annuages themselves as eithingular annuages.

The Proceedings.

As is usual with all such meetings the delegates were a little slow in arriving at the theatre and it was 35 minutes past the hour of noon, the time fixed for assembling, when County Chairman Lloyd called the delegations to order.

CHAIRMAN LLOYD FELICITATES.

Mr. Lloyd declared the convention was the greatest of the kind ever held in the country; one which had an urgent duty to perform. He urged that none but the best men be selected for the places. Without further delay he named the temporary officers of the convention. Hen James H. Moyle for the chairmanship. Mrs. Altee Metrill Horne, as severary and John E. Hansen used in the convention of the convention. Hen James H. Moyle for the convention. Hen James H. Moyle for the convention. Mrs. Altee Metrill Horne, as severary and John E. HON J. H. MOYLE.

Moyle indulged in a few rerupon taking the position. He
rupon taking the position and fel-Mr. Moyle indulged in a few remarks upon taking the position. He said: "Ladies and gentlemen and fellow delegates; Ordinarily I am against the plan of the committee maming a chaffman, but it has grown to be a custom with us here in this city and there is probably no reason for objection. The conditions under which the convention meets today are very favorable, more than even before. Two years are we had had the Republican party in power as a result of which the county warrants went beging on the streets. Two years more of a continuance of such a policy and we should have been bankrupt. Today our warrants are at par and a heavy indebtedness created by the former administration has been wiped out. The duties of the county are now performed with about one-half the assistance and one-half the expense. We have reason to be proved of the record which we have made and cun go before the people with a feeling of confidence.

It is true that many of our former allies, the silver Republicans, or some of them, have descreed us. They profess a great love for silver and a great disgust with Hanna and McKinley. They say the reasons they have for leaving us are that we want all the offices, not because they do not want them. How thru is their devotion when they join hands with Hanna and McKinley and go before the people professing to be the friends of silver. The people of

bilind as these people would have them believe and can see the power behind the movement.

The chair said he trusted the delegations had come here to nominate a ticket which would meet the approbation of the Democratic party and the people. There are many giver Republicans in the ranks, who have become Pemocrats and they should be treated with consideration, for the man who changes his politics sometimes has to struggle heroically to admit he has made an error. The delegates should ever remember the high duty of placing in nomination candidates for office. They should be the men and women best fitted for the places. The man ar woman who votes for a candidate on the grounds of friendship, when others of greater ability are to be had, is unworthy of the right to sit as delegates. The thair also cautioned the delegates that too much confidence sometimes resulted disastronsty and that the best work should be accomplished in the convention which was possible to accomplish. Two years ago when the Democracy took possession of the county finances the sounty was mable to meet its obligation—its warrants had depreciated until worth no more than 80 cents on the dollar—taxpayers were filled with alarm and dismay, because there seemed to be no limit to the growing depreciation of the county's credit—these conditions following as a result of Republican utsmanagement and coruplier. Today county bends seil at a permium, warrants bring par, financial affairs are restored to a cash basis—more than \$50,000 of indebtedness created by an extravagant and notoriously incompetent Republican county administration had been wheel out—and the reputation of the county away from financial diagrace. Despite an increase

paid, the number of employees under Democratic rule has been decad and the cost of speriting the country's affairs has been diminished.

Every citizen familiar with the present affairs of the country will recognize that efficiency has been threeased while expenses have been diminished by reason of the Democratic possession of the country Offices. We challenge a controversion of the claim—that every promise made by the country Democracy in 1836 to the voters has found perfect execution and fulfilment. Upon this record of unexampled excellence and economy in the management of affairs, the Democratic party asks the suffrages of voters, pledsing not only as satisfactory conduct of the business interests of the people of Salt Lake country as in the past, but hasing this pledge upon a record which is now before the people. We declare our allegiance to the Democratic party, and to the principles enunciated in the national platform adopted at Chicago in 1856, as well as to all pledges of the Democratic party of Utah. This includes the demand for the restoration of the free and unlimited coinage of both gold and silver at the restoration. We held this basic to be still of paramount importance, and pledge ourselves to its steadfast and earness support as a principle—that has obtained in the Democratic party since the debasement of silver—and we further pledge surselves to this support of only such candidates for office as are sincerely and unschinding two fortics as are sincerely and unschinding two fortics as are sincerely and unschinding two fortics as are sincerely and unschinding to the fortics of the facure.

We cordially welcome to the ranks of temocrater the ways volume to the facure. paid, the number of employees under Democratic rule has seen reduced and

Our condelence goes out to the fathers and muthers, to the wives and sisters, whose loved ones having braved and withstood the perils of war, are returned only to be assausinated by the gross incompetency of a Republican administration, which, to serve political ends, and to pay political debts, has suffered disease and death to do to American volunteers what the provess American volunteers what the prowess of foreign arms was unable to accom-

The report of the committee was adopted amid intense cheering on the part of the delegates, the allusions to silver, the record of the county administration and the volunteers being sense fally well received.

is strained and reconciliation may be difficult. What makes the situation the more troublesome is the undisguised rivalry between the followers of General Aguinaldo, the self-proclaimed dictator, and General Pilar, who covets the binor which Aguinaldo has acquired. General Pilo Pilar, is in command of the insurgent troops stationed south of Manila. He uses them in a way that is most annoying to Aguinaldo, and at the same time makes every effort to show his utter disregard of the American officials.

His forces continue to patrol the city.

Againaldo's course is no less annoying. He no longer attempts to conceal his hostility to the officials who represent the United States and yesterday issued an order prohibiting his soldiers from entering the American lines. This course was probably deemed necessary in order to prevent them from becoming so well disposed loward Americans as to destroy his power by repudiating his leedership.

The attitude of the rival leaders can-not fail in the end to injure the cause of Philippine independence. Certainly it will prevent the presentation of a strong case before the peace commis-sion in behalf of the Philippines.

names on the successful Fourth ward ticket are with them, and on the other hand the fusionists claim some names in the other tickets. The result is generally taken as an emphatic fusion defeat and also anti-Washakie and while those terms are claimed by some to be misnomers they were used as distinguishing terms.

During the last week or so the fight became a personal fight on Mr. C. C. Richards, a prominent champion of the anti-fusion plan. The issue was openly stated and promptly accepted. In the Second ward this personal fight was sharp. The anti-fichards people headed their tickets "Bryan and silver and no boss rule," the first brush came in the siection of chairman. Then Mr. Richards nominated Dr. J. X. Allein and the others named A. G. Horn. The vote was 55 to 71 for Allen. Subsequent votes showed continued gains for the Richards people because people were coming in late. The Richards ticket won by 21 majority.
